LUCASMETALWORKS.COM

At Lucas, we're big enough for the large jobs, and small enough to call our customers, "friends".

RESIDENTIAL BUILDINGS / HOMES

Metal homes are the latest preferred construction in the new millenia. Offering added longevity over timber homes, lower maintenance costs and overall affordability. Interiors can be designed from simple to extravagant in a metal home. Whatever your preference, a metal home can meet and exceed all your expectations.

COMMERCIAL BUILDINGS

Many businesses around the US have chosen Lucas Metal Works to design and manufacture their commercial properties. Companies who choose a Lucas Building know they are getting a building designed and manufactured to stand and fulfill its purpose for many years to come. We take pride in every steel building we are given the privilege to manufacture and it shows! And we appreciate every single customer who has chosen us!

STORAGE BUILDINGS, GARAGES & HANGERS

Park and store your valued vehicles and equipment without any worries for proper protection. Lucas Metal works® can and does design useful and beautiful, aircraft hangars. Some have living quarters, some have with RV parking, while others are strictly for the aircraft only. A Lucas workshop offers plentiful space, a sturdy structure and longevity for all your past, present and future projects.

CHURCH & RELIGIOUS BUILDINGS

Many churches today are being constructed using metal, and for good reason. An ideal balance of quality, affordability, and long-term value, make them a smart investment for congregations of all sizes. Metal construction allows for remarkable design flexibility. Sanctuaries can feature soaring, open floor plans and inspiring details. Modern churches can be customized with attractive facades, stone or brick accents, and decorative trim, ensuring the exterior is every bit as inviting as the worship space within.

AGRICULTURAL BUILDINGS

Entrusting Lucas Metal works® with the fruits of your labor, whether hay or livestock, rest assured you've chosen the right building for your needs! Our buildings are a safe haven and offer durability and versatility for horses, cattle and farm animals of any type.

SELF/MINI-STORAGE BUILDINGS

Call it what you wish, a Self-Storage or Mini-Storage facility is a path to a whole new business adventure that has the potential for great returns in your investment. At Lucas, we design and manufacture from small to spacious self-storage facilities for both small and large self-storage companies and individuals. Self-storage units manufactured by Lucas Metal works®, can be found all over Oklahoma and the neighboring states. They are beautiful, affordable, versatile and maintenance free.

GROWTH, EXPANSION AND STATE-OF-THE-ART MANUFACTURING

Lucas Metal works® completed their facility expansion in the Summer of 2025, expanding from a seventy-six thousand square foot facility to a whopping one-hundred-twenty-four-thousand square foot facility.

Our impressive new facility includes a state-of-the-art plasma, seam welder, beam welder, pull-through welder, complete flange line and weld-out shop. Custom steel buildings are our expertise, now while meeting customer expectations at all-new levels. Our focus remains on our quality assurance, industry expertise and first-rate customer service that sets us apart from competitors.

Expanding our facilities and our workforce has enabled Lucas Metal works® to meet the needs of our customers, not only at an improved pace, but with expanded capabilities.

JUST LOOK AT THE POSSIBILITIES

Let's be honest, typically, when a person thinks of the interior of a steel structure, beauty isn't the first thing that comes to mind. But we want to change the stigma that goes with that way of thinking. In actuality, steel buildings can have beautiful interiors, and with a bit of ingenuity, the possibilities are limitless. Just look at these images. Beautiful interior Lucas Metal homes, so gorgeous they belong in a magazine. All of these designs were chosen by the homeowners themselves. We love when our customers think "outside the box" to bring even more beauty to their Lucas Metal homes. Throw out the old way of thinking and just look at the possibilities!

BUILT TO LAST

Lucas Metal works® is your one-stop shop for steel buildings. We offer custom designs that are **BUILT TO LAST** to meet each of our customers' needs.

Founded in 1968, we have over **55 years of success** in providing the best customer service in the industry.

Lucas' customers know they are investing in steel products that look great, stand the test of time, and save time, energy, and money.

Our experienced staff will assist you through every step of the process. Our purpose is to ensure you receive the building exactly how you envisioned.

We employ expert welders and top-of-the-line panel and trim specialists who are continuously insuring quality control throughout the entire building process.

LET US BE YOUR INSPIRATION FOR A BEAUTIFUL STEEL BUILDING!

- Commitment, quality and expertise are found throughout Lucas Metal works®. Our focus is to provide quality products that endure the test of time.
- Red Iron Steel is another trademark of Lucas Metal Works steel buildings. Our "red iron" ensures every Lucas building has "good bones". When you see Lucas red iron, you are seeing a building that is BUILT TO LAST!
- Our 19 beautiful colors include both modern and classic appeal. Eighteen of Lucas's color roofing panels are warranted for 40 years, while our textured Crinkle Black is warranted for 20 years. In addition, our wall and roof panels are certified in accordance with UL-790 (fire testing), as well as being certified in accordance with UL-2218 (impact resistance). Talk about ease of mind!
- Customer Service is another highly ranked specialty at Lucas Metal works®. Before, during and after each sale, Lucas's attention to the customer and the products they manufacture never waivers. By choosing Lucas, you are ensuring the complete process will be handled by top industry professionals whose support will remain by your side throughout your entire steel building project.
- Our buildings ship welded with clips in place, allowing for a much less labor-intensive build on location. Contractors and Erectors prefer Lucas metal buildings over competitors, due to the simpler erection process.
- Need a great contractor or erector? At Lucas we have excellent working relationships with many highly qualified contractors and erectors. We can recommend one best fitted for all your steel building needs.

At Lucas, we're big enough to handle the large jobs, and small enough to call our customers, "friends".
