

BUILT TO LAST

Lucas Metal Works is your one-stop shop for steel buildings. We offer custom designs that are **BUILT TO LAST** to meet each of our customers' needs.

Founded in 1968, we have over **50 years of success** in providing the best customer service in the country.

Lucas' customers know they are investing in steel products that look great, stand the test of time, and save time, energy and money.

Our experienced staff will assist you through every step of the process. Our purpose is to ensure you receive the building exactly how you envisioned.

We employ expert welders and top-of-the-line panel and trim specialists who are continuously insuring quality control throughout the entire building process.

Our products are proudly built in the **USA**

PROTECT THE OTHER LOVE OF YOUR LIFE

Your boat or RV is the gateway to relaxation, connection with nature, and enjoyment with family and friends. Spending time on the road or on the water is a luxury you look forward to, but storage space for your investment can be difficult to find and surprisingly expensive to obtain. Reliable and affordable storage buildings are our specialty at Lucas Metal Works. Protect your boat or RV in one of our custom-manufactured, uniquely designed steel structures.

Steel storage buildings for your boat or RV have many advantages. Metal makes durable buildings requiring less maintenance. Our buildings are made with Energy Star-rated, certified safe panels meeting requirements for fire and impact resistance. You will not worry about hazards like termites, mold, rot, and cracks. Our structures are stable, and resistant to elements like snow, hail, rain, intense heat, or high winds. Steel frame buildings are completely recyclable and better for the environment.

WHY LUCAS?

Because being in business for more than 50 years spells **"success"**. As a result, we are able to design, manufacture and ship quality steel buildings to satisfied customers.

All of our products and components are **made in the USA** and we are proud to manufacture each structure in **Ochelata, Oklahoma**. We make custom steel buildings that are **BUILT TO LAST**. Let us turn your unique vision into a reality.

BOAT STORAGE

ANY SIZE OR SHAPE

We are proud to deliver the best customer service in the industry. Our expert welders, panel and trim specialists, and sales team ensure the highest standard of quality control throughout the process of making your building. We promise excellent service before, during and after each sale, providing a unique structure to fit your needs, and the assistance of our knowledgeable staff every step of the way.

We're big enough to handle the large jobs, and small enough to call our customers, "FRIENDS".

NEW: BUILDING COLOR SELECTOR

RV STORAGE

We strive to provide the customized structure you want with the safety and durability you need. We offer options like different panel gauges, windows, and other available design tools to personalize your building. Your design can be customized to accommodate your exact RV or boat. We love it when customers think outside the box, and helping you design the building of your dreams is our passion.

100,000+ Options

Introducing our handy Metal Building Customizer tool. Using the tool, you can preview any available color combination. Choose from 18 different color choices for your roof, walls, wainscot, and trim. That's a whopping 104,976 different color combinations!

Check it out now on your smartphone and begin designing your custom metal storage building.
