LUCAS GRAPPLE™

**HOLDS
UNEVEN
LOADS**

**HARD WORK
DESERVES A
HARD WORKING
IMPLEMENT**

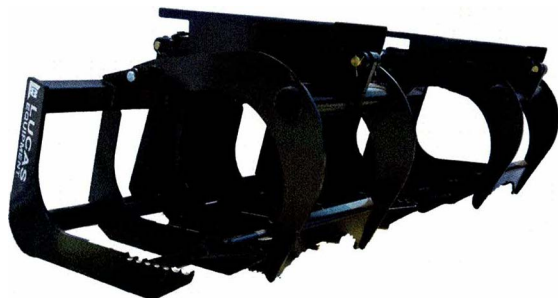

**AGGRESSIVE
TOOTH
GRIP**

**WIDEST JAW
OPENING IN
ITS CLASS**

Does your project require moving heavy objects? If so, then the LUCAS GRAPPLE is your solution. The LUCAS GRAPPLE has dual grapples with aggressive, serrated teeth that operate independently to hold uneven loads securely. The LUCAS GRAPPLE comes standard with a 33" wide jaw opening, one of the widest jaw capacity ratings in its class. Available in various model widths and attachment options, the LUCAS GRAPPLE is your safest solution when looking to move heavy objects during your project. No corners are cut in the making of our LUCAS GRAPPLE because your project deserves a hard working implement that works just as hard as you do. Another project, another solution.

**HIGH CAPACITY
JAW DEPTH**

**SOLID STEEL
PLATE TO
PROTECT
HYDRAULICS**

**INDEPENDENTLY
OPERATED JAWS**
