STORAGE BUILDINGS

At some point during one's lifetime, there comes a need for more storage space, and a Lucas steel building provides an excellent choice for the storage needed. From household items to collectibles, boats, RV's and even heavy machinery, we have a steel building to meet your needs, saving you time and money.

AGRICULTURAL BUILDINGS

Lucas Metal Works has a history of providing long-lasting, sturdy, reliable structures that are perfect for housing hay, commodities, cattle, horses, or livestock of any kind. Our steel buildings will protect your assets while giving you peace of mind.

GARAGES & WORK SHOPS

Lucas Steel Buildings are versatile and make attractive & functional shops for woodworking, machining, hobbies, etc., along with perfect protection for your vehicles. Don't forget to ask us about DR!PSTOP®, an anti-condensation material applied directly onto our panels during the manufacturing process that stops condensation from dripping onto your stored valuables.

RESIDENTIAL BUILDINGS

Believe it or not, Lucas Steel Buildings make beautiful, sturdy homes that will last for years and years, virtually maintenance-free. We have 16 aesthetically beautiful colors to choose from, with a 40-year warranty, and are certified in accordance with UL-790 (Standard Test Methods for Fire Tests of Roof Coverings), and UL-2218 (Standard for Impact Resistance of Prepared Roof Covering Materials). From custom design to delivery, we always put our customers first and we keep them there.

COMMERCIAL BUILDINGS

With a Lucas Building, you can't go wrong." This is what some of our commercial customers have said. When it comes to commercial property, you want quality. You want accuracy in design. You want practicality. You want competitiveness. You want a building that will make you and save you money in the long term. With that, you want a Lucas Steel Building.

SELF-STORAGE BUILDINGS

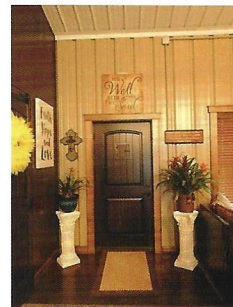

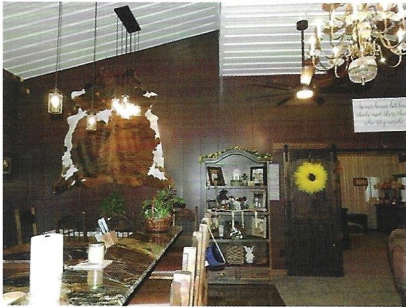

Self-Storage businesses are becoming more and more popular. With low overhead, a minimal employee base & low maintenance, these businesses are on the rise. At Lucas, we specialize in self-storage units offering various state-of-the-art designs guaranteed to draw attention where you want it. Lucas self-storage units combined with business prowess will definitely equal success!

JUST LOOK AT THE

POSSIBILITIES

Let's be honest, typically, when a person thinks of the interior of a steel structure, beauty isn't the first thing that comes to mind. But we want to change the stigma that goes with that way of thinking. In actuality, steel buildings can have beautiful interiors, and with a bit of ingenuity, the possibilities are limitless. Just look at these images. Beautiful interior Lucas metal homes, so gorgeous they belong in a magazine. All of these designs were chosen by the homeowners themselves. We love when our customers think "outside the box" to bring even more beauty to their Lucas Metal homes. Throw out the old way of thinking and just look at the possibilities!

TESTIMONIALS

"I am truly pleased with my building and with the personnel at Lucas Metal. Brian Inman went above and beyond to answer all my questions. Thank you all."

~ **Corey R.**

"Never have any problems when working with all of the guys at Lucas! Mr. Billy always goes above and beyond to meet my needs. Love working with you guys."

~ **Brandon T.**

"Dona has always provided exceptional customer service to me. She is an asset to your company. We love our shop!"

~ **Michelle B.**

"Always a pleasure working with you guys! Thanks!"

~ **Medlin's Roofing**

"I will use you on building my moms house and my other barns. Thank you."

~ **Stephanie P.**

BUILT TO LAST

Lucas Metal Works is your one-stop shop for steel buildings. We offer custom designs that are **BUILT TO LAST** to meet each of our customers' needs.

Founded in 1968, we have over **50 years of success** in providing the best customer service in the industry.

Lucas' customers know they are investing in steel products that look great, stand the test of time, and save time, energy and money.

Our experienced staff will assist you through every step of the process. Our purpose is to ensure you receive the building exactly how you envisioned.

We employ expert welders and top-of-the-line panel and trim specialists who are continuously insuring quality control throughout the entire building process.

WHY BUILD WITH US?

- Our panels are certified in accordance with UL-790 (fire testing).
- Our Panels are certified in accordance with UL-2218 (impact resistance).
- Discounts on risk insurance are a possibility.
- Wall and roofing color panels have a 40-year warranty.
- Panels are available in 16 aesthetically pleasing colors.
- Buildings are termite, wood bee, rot, mold, mildew and crack resistant.
- Steel buildings can have the outward appearance of any building, meaning they do not have to be metal panels on the outside.
- Design flexibility with custom pre-fab designs.
- Structural strength and integrity.
- Shorter construction/erection times, compared to traditional timber buildings.
- Low maintenance.
- Longer lifespans than traditional timber, therefore cost effective.
- Steel is sturdier than wood and is better able to withstand disasters, such as earthquakes, hurricanes or tornadoes.
- Steel buildings render much less scrap and waste.
- Land with Steel building(s) on it tend to appreciate, whereas land with wooden structures will likely depreciate over time.
- Less costs over the life of the building compared to timber buildings.
- Steel buildings are a better long-term building solution as compared to timber frame buildings.
- Steel is a "green" product and is completely recyclable.
- Steel frames are the best choice for durability and longevity.

We're big enough to handle the large jobs and small enough to call our customers, "friends".
